PROFESSIONAL DASHBOARD

Live Interactive Showcase & Analytics: <https://rishabhdashboard.vercel.app/>

PROFESSIONAL SUMMARY

Software Developer with 1.6 years of professional experience specializing in building responsive, high-performance web applications and CMS-driven platforms. Skilled in JavaScript (ES6+), React.js, Tailwind CSS, Drupal, and API integration, with demonstrated expertise in client communication, UI performance optimization, and cross-browser compatibility. Proficient in managing direct client discussions, gathering requirements, and delivering production-ready solutions within tight project timelines.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), React.js, Tailwind CSS, HTML5, CSS3
CMS Platforms: Drupal, WordPress, Shopify
Developer Tools: Git, GitHub, Visual Studio Code, Vercel
Core Strengths: Client Communication, UI/UX Implementation, Performance Optimization, Debugging

PROFESSIONAL EXPERIENCE

Software Developer — Singsys Pvt. Ltd., Lucknow March 2025 – Present (1.6 Years)

- Develop and maintain scalable, production-ready web applications using modern frontend technologies and CMS platforms.
- Translate complex UI/UX designs and client specifications into clean, mobile-first, and highly responsive user interfaces.
- Lead daily client requirement discussions, status meetings, progress demonstrations, and feedback implementation cycles.
- Manage enterprise Drupal CMS portals, implementing dynamic page updates, content architecture, and custom scripts.
- Collaborate closely with designers and backend teams to perform RESTful API integrations and resolve cross-layer application issues.
- Identify root causes through targeted frontend debugging to optimize cross-browser loading speeds and overall performance.

KEY PROJECTS

Fujifilm Enterprise Websites (Tech Stack: Drupal, HTML5, CSS3, JavaScript, Responsive Web Design)

- Maintained and enhanced 12 live Fujifilm enterprise websites, delivering structural UI updates and feature enhancements.
- Participated in daily direct client calls to gather requirements, demo updates, and validate changes prior to production release.
- Troubleshoot frontend and CMS-related issues to maintain visual consistency and performance standards across all 12 properties.

Tech-Comp Website (Tech Stack: HTML5, CSS3, JavaScript, Laravel)

- Contributed to the frontend development and maintenance of the Tech-Comp portal, integrated with a Laravel backend.

- Created structured, user-friendly layouts and responsive interactive elements across mobile, tablet, and desktop views.
- Collaborated with team members to execute requirement updates, fix UI bugs, and deliver features on schedule.

Bharat Eco Volt – EV Charger Platform *(Tech Stack: React.js, JavaScript, Tailwind CSS)*

- Engineered a high-performance EV charging solutions website using modern, reusable React.js components.
- Optimized navigation UX and presentation layouts to ensure seamless mobile responsiveness and fast load times.

Gym Management System *(Tech Stack: Node.js, JavaScript, HTML, CSS)*

- Developed a web-based gym management application supporting member registration, membership tracking, and records management.
- Built intuitive user interfaces and configured Node.js backend logic for dynamic data handling and operations.
