

RISHABH TRIPATHI

SOFTWARE DEVELOPER | FRONTEND DEVELOPMENT

Lucknow, Uttar Pradesh • +91 7007254304 • rt28082002@gmail.com
LinkedIn • GitHub • Portfolio: rishabhdashboard.vercel.app

PROFESSIONAL SUMMARY

Software Developer with 1.6 years of professional experience building responsive web applications and CMS-driven platforms. Strong hands-on experience with JavaScript, React.js, HTML5, CSS3, Tailwind CSS and Drupal. Experienced in translating UI/UX requirements into production-ready interfaces, maintaining enterprise websites, troubleshooting frontend/CMS issues, and working directly with clients to understand requirements, demonstrate progress and implement feedback.

TECHNICAL SKILLS

Frontend	JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design
CMS	Drupal, WordPress, Shopify
Backend / Integration	Node.js, REST API Integration, Laravel-based applications
Tools	Git, GitHub, Visual Studio Code, Vercel
Professional	Client Communication, Requirement Gathering, UI/UX Implementation, Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

Software Developer — Singsys Pvt. Ltd., Lucknow | March 2025 – Present

Experience: 1.6 Years

- Develop and maintain responsive, production-ready web applications using JavaScript, React.js, HTML5, CSS3 and modern UI practices.
- Build reusable and maintainable frontend components while following responsive design principles across desktop, tablet and mobile devices.
- Manage enterprise Drupal CMS portals, including page creation and updates, content publishing, metadata maintenance, URL updates and multilingual content workflows.
- Work directly with clients through daily discussions, requirement clarification, status updates, demonstrations and feedback implementation.
- Analyze and resolve frontend, CMS and UI issues through structured debugging, improving consistency, usability and cross-browser behavior.
- Collaborate with designers and backend teams on UI implementation, REST API integration and end-to-end issue resolution.
- Support website maintenance activities including content updates, redirects, broken-link checks, SEO-related updates and production validation.
- Use Git/GitHub-based workflows and development tools to manage code changes and support reliable delivery.

KEY PROJECTS

Fujifilm Enterprise Websites | Drupal • HTML5 • CSS3 • JavaScript

- Maintained and enhanced 12 live Fujifilm enterprise websites, implementing structural UI, content and functional updates.
- Worked on Drupal-based page management, content publishing, metadata cleanup, URL updates, redirects and multilingual/local-language content.
- Handled client-requested changes through daily discussions, requirement clarification, update demonstrations and pre-production validation.
- Investigated CMS and frontend issues and coordinated fixes to maintain consistent UX, responsive layouts and website quality across properties.

Tech-Comp Website | HTML5 • CSS3 • JavaScript • Laravel

- Contributed to frontend development and maintenance of the Tech-Comp website integrated with a Laravel backend.
- Implemented responsive layouts, structured UI sections and interactive elements for desktop, tablet and mobile views.
- Worked on UI bug fixes, requirement-driven updates and frontend improvements in coordination with the development team.

KEY PROJECTS — CONTINUED

Bharat Eco Volt - EV Charger Platform | React.js • JavaScript • Tailwind CSS

- Developed a modern EV charging solutions platform using reusable React.js components and Tailwind CSS.
- Created responsive page structures and optimized navigation and presentation for a smooth user experience across screen sizes.
- Applied component-based frontend practices to keep the interface scalable and maintainable.

Gym Management System | Node.js • JavaScript • HTML • CSS

- Developed a web-based gym management application supporting member registration, membership tracking and records management.
- Built intuitive interfaces and implemented Node.js backend logic for dynamic data handling and operational workflows.

ADDITIONAL PROJECT STRENGTHS

- Responsive UI development with a focus on clean layouts, usability and cross-browser compatibility.
- CMS-driven enterprise website maintenance with structured content and production validation workflows.
- Client-facing communication, requirement analysis and converting feedback into actionable development updates.
- Frontend debugging and performance-focused improvements across real-world web applications.
